WOAH Reference Laboratory Reports Activities 2023
Activities in 2023
This report has been submitted: 1 juillet 2024 14:11

Laboratory Information

| Name of disease (or topic) for which you are a designated WOAH Reference Laboratory: | Bluetongue |
| Address of laboratory: | No. 100 Old Soutpan Road, Onderstepoort, 0110, Gauteng Province, South Africa |
| Tel: | +27-12 529 91 17 |
| E-mail address: | LubisiA@arc.agric.za |
| Website: | https://www.arc.agric.za/ |
| Name (including Title) of Head of Laboratory (Responsible Official): | Dr. Arshad Mather - Acting Senior Manager Research: Animal Health and Protection |
| Name (including Title and Position) of WOAH Reference Expert: | Dr. Baratang Alison Lubisi - Research Team Manager: Diagnostic Services |
| Which of the following defines your laboratory? Check all that apply: | Governmental |

TOR1: DIAGNOSTIC METHODS

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)
Yes

<table>
<thead>
<tr>
<th>Diagnostic Test</th>
<th>Indicated in WOAH Manual (Yes/No)</th>
<th>Total number of test performed last year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indirect diagnostic tests</td>
<td></td>

<tr>
<td>Real Time RT-PCR</td>
<td>Yes</td>
<td>Nationally: 589 Internationally: 0</td>
</tr>
</tbody>
</table>

TOR2: REFERENCE MATERIAL

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by WOAH?
No
3. Did your laboratory supply standard reference reagents (nonWOAH-approved) and/or other diagnostic reagents to WOAH Members?
No
4. Did your laboratory produce vaccines?
Not applicable
5. Did your laboratory supply vaccines to WOAH Members?
Not applicable

TOR3: NEW PROCEDURES

6. Did your laboratory develop new diagnostic methods for the designated pathogen or disease?
Yes

<table>
<thead>
<tr>
<th>NAME OF THE NEW TEST OR DIAGNOSTIC METHOD DEVELOPED</th>
<th>DESCRIPTION AND REFERENCES (PUBLICATION, WEBSITE, ETC.)</th>
</tr>
</thead>
</table>
An inhibition assay to detect antibodies against bluetongue virus (BTV) in sera was developed previously. The test is based on a domain of BTV-VP7 expressed in bacteria and a recombinant single chain antibody (scFv F10) that reacts in a serogroup-specific manner to VP7. Sheep sera from BTV infected animals inhibits the binding of scFv F10 to VP7. This ELISA works in the competition format which also reduces the number of steps. This year, pre-coated plates were tested and shown to be stable for up to 15 months thus far. Both Stabicoat and Superblock can be used. Hundred BTV negative serum samples and 50 BTV positive serum samples were tested. The final statistical analysis still needs to be performed. Validation is in progress.

7. Did your laboratory validate diagnostic methods according to WOAH Standards for the designated pathogen or disease?
No

8. Did your laboratory develop new vaccines for the designated pathogen or disease?
No

9. Did your laboratory validate vaccines according to WOAH Standards for the designated pathogen or disease?
No

**TOR4: DIAGNOSTIC TESTING FACILITIES**

10. Did your laboratory carry out diagnostic testing for other WOAH Members?
Yes

<table>
<thead>
<tr>
<th>NAME OF WOAH MEMBER</th>
<th>DATE</th>
<th>WHICH DIAGNOSTIC TEST USED</th>
<th>NO. SAMPLES RECEIVED FOR PROVISION OF DIAGNOSTIC SUPPORT</th>
<th>NO. SAMPLES RECEIVED FOR PROVISION OF CONFIRMATORY DIAGNOSES</th>

<td>ELISA</td>
<td>1</td>
<td>0</td>
</tr>
</tbody>
</table>

11. Did your laboratory provide expert advice in technical consultancies on the request of an WOAH Member?
No

**TOR5: COLLABORATIVE SCIENTIFIC AND TECHNICAL STUDIES**

12. Did your laboratory participate in international scientific studies in collaboration with WOAH Members other than the own?
Yes

<table>
<thead>
<tr>
<th>Title of the study</th>
<th>Duration</th>
<th>PURPOSE OF THE STUDY</th>
<th>PARTNERS (INSTITUTIONS)</th>
<th>WOAH MEMBER COUNTRIES INVOLVED OTHER THAN YOUR COUNTRY</th>

<td>AUSTRALIA</td>
</tr>
</tbody>
</table>

13. In exercising your activities, have you identified any regulatory research needs* relevant for WOAH?
No

**TOR6: EPIZOOLOGICAL DATA**

14. Did your Laboratory collect epidemiological data relevant to international disease control?
Yes

**IF THE ANSWER IS YES, PLEASE PROVIDE DETAILS OF THE DATA COLLECTED:**

Sera were tested to determine bluetongue seropositivity and seroprevalence in different susceptible species. Viruses were isolated from field samples and typed using serological methods. In addition, the genomes of circulating viruses were sequenced to determine genetic changes.

15. Did your laboratory disseminate epidemiological data that had been processed and analysed?
Yes

IF THE ANSWER IS YES, PLEASE PROVIDE DETAILS OF THE DATA COLLECTED:

Yes. Two scientific articles were published. An oral presentation was made at the combined bluetongue and African horse sickness workshop, Madrid, Spain, 7-8 November 2023.

16. What method of dissemination of information is most often used by your laboratory? (Indicate in the appropriate box the number by category and list the details in the box)

a) Articles published in peer-reviewed journals:

2

b) International conferences:

1

c) National conferences:

d) Other (Provide website address or link to appropriate information):

TOR7: SCIENTIFIC AND TECHNICAL TRAINING

17. Did your laboratory provide scientific and technical training to laboratory personnel from other WOAH Members?

No

TOR8: QUALITY ASSURANCE

18. Does your laboratory have a Quality Management System?

Yes

<table>
<thead>
<tr>
<th>Quality management system adopted</th>
<th>Certificate scan (PDF, JPG, PNG format)</th>
<th>Accreditation body</th>
</tr>
</thead>
</table>

19. Is your quality management system accredited?

Yes

<table>
<thead>
<tr>
<th>Test for which your laboratory is accredited</th>
<th>Accreditation body</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bluetongue ELISA</td>
<td>South African National Accreditation System (SANAS)</td>
</tr>
</tbody>
</table>

20. Does your laboratory maintain a “biorisk management system” for the pathogen and the disease concerned?

Yes

The laboratory adheres to good laboratory practices and has standard operating procedures (SOPs) and fit for purpose equipment and facilities to ensure biosecurity, biosafety, and biocontainment of pathogens.
TOR9: SCIENTIFIC MEETINGS

21. Did your laboratory organise scientific meetings related to the pathogen in question on behalf of WOAH? 
No

22. Did your laboratory participate in scientific meetings related to the pathogen in question on behalf of WOAH? 
No

TOR10: NETWORK WITH WOAH REFERENCE LABORATORIES

23. Did your laboratory exchange information with other WOAH Reference Laboratories designated for the same pathogen or disease? 
Yes

24. Do you network (collaborate or share information) with other WOAH Reference Laboratories designated for the same pathogen? 
Yes

<table>
<thead>
<tr>
<th>NETWORK/DISEASE</th>

<td>Organiser: EU Reference Laboratory for African horse sickness and Bluetongue, Algete, Spain. Participating WOAH Reference Laboratories: Pirbright (United Kingdom), and Istituto Zooprofilattico Sperimentale dell’Abruzzo e del Molise “G. Caporale”</td>
</tr>
</tbody>
</table>

26. Did your laboratory collaborate with other WOAH Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest? 
No

TOR11: OTHER INTERLABORATORY PROFICIENCY TESTING

27. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than WOAH Reference Laboratories for the same pathogen? 
No

TOR12: EXPERT CONSULTANTS

28. Did your laboratory place expert consultants at the disposal of WOAH? 
No

29. Additional comments regarding your report: 
Yes

The laboratory receives few samples for bluetongue diagnostic purposes nationally, and fewer internationally. A plea was made to the Southern African Development Community (SADC) through the WOAH Sub-Regional Representation for Southern Africa, for veterinary officials to submit samples for diagnostic purposes. The request also extended to research organisations for collaboration on the disease.

The Tanzania Veterinary Laboratory Agency has expressed interest in a twinning project with the laboratory on diseases of small ruminants, including bluetongue. The project was supported by WOAH and funding sought. It will commence in 2024 if all administrative processes are completed and funding is obtained.
