**WOAH Reference Laboratory Reports Activities 2023**

**Activities in 2023**

This report has been submitted: 12 juin 2024 15:43

**Laboratory Information**

Name of disease (or topic) for which you are a designated WOAH Reference Laboratory:

Equine infectious anemia

Address of laboratory:

Istituto Zooprofilattico Sperimentale delle Regioni Lazio e Toscana (IZSLT) Via Appia Nuova 1411 00178 Rome

Tel:

+390-6 79.09.93.15

E-mail address:

teresa.scicluna@izslt.it

Website:

Name (including Title) of Head of Laboratory (Responsible Official):

Maria Teresa Scicluna Head of Virology Unit

Name (including Title and Position) of WOAH Reference Expert:

Maria Teresa Scicluna

Which of the following defines your laboratory? Check all that apply:

Governmental

**TOR1: DIAGNOSTIC METHODS**

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

<table>
<thead>
<tr>
<th>Diagnostic Test</th>
<th>Indicated in WOAH Manual (Yes/No)</th>
<th>Total number of test performed last year</th>
</tr>
</thead>
<tbody>

<td>Yes</td>
<td>Nationally: 28 Internationally: 0</td>
</tr>
</tbody>
</table>

**TOR2: REFERENCE MATERIAL**

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by WOAH?

No

3. Did your laboratory supply standard reference reagents (non-WOAH-approved) and/or other diagnostic reagents to WOAH Members?

Yes

<table>
<thead>
<tr>
<th>TYPE OF REAGENT AVAILABLE</th>
<th>RELATED DIAGNOSTIC TEST</th>

4. Did your laboratory produce vaccines?  
No  

5. Did your laboratory supply vaccines to WOAH Members?  
No  

**TOR3: NEW PROCEDURES**  

6. Did your laboratory develop new diagnostic methods for the designated pathogen or disease?  
No  

7. Did your laboratory validate diagnostic methods according to WOAH Standards for the designated pathogen or disease?  
No  

8. Did your laboratory develop new vaccines for the designated pathogen or disease?  
No  

9. Did your laboratory validate vaccines according to WOAH Standards for the designated pathogen or disease?  
No  

**TOR4: DIAGNOSTIC TESTING FACILITIES**  

10. Did your laboratory carry out diagnostic testing for other WOAH Members?  
Yes  

<table>
<thead>
<tr>
<th>NAME OF WOAH MEMBER COUNTRY SEEKING ASSISTANCE</th>

</tbody>
</table>

**TOR5: COLLABORATIVE SCIENTIFIC AND TECHNICAL STUDIES**  

12. Did your laboratory participate in international scientific studies in collaboration with WOAH Members other than the own?  
No  

13. In exercising your activities, have you identified any regulatory research needs* relevant for WOAH?  
No  

**TOR6: EPIZOOLOGICAL DATA**  

14. Did your Laboratory collect epidemiological data relevant to international disease control?  
Yes  

**IF THE ANSWER IS YES, PLEASE PROVIDE DETAILS OF THE DATA COLLECTED:**  

The WOAH Reference Laboratory, as National Reference Centre for EIAV, continues to collect data on surveillance activities and outbreaks using online platform made available to the Italian Laboratory Network who every trimester upload the results of the tests conducted according to the National Surveillance Programme. The data is elaborated and presented on the website https://craie.izslt.it/craie/ with different level of access as following:  
• a section accessible to the public to view the national epidemiological situation (CRAIE Web GIS),  
• a section accessible to the official authorities (CRAIE Web GIS), within which they can manage the outbreaks by downloading the list of premises that must be
15. Did your laboratory disseminate epidemiological data that had been processed and analysed?
Yes

**IF THE ANSWER IS YES, PLEASE PROVIDE DETAILS OF THE DATA COLLECTED:**

The data collected can be viewed at the following website https://craie.izslt.it/craie/

16. What method of dissemination of information is most often used by your laboratory? (Indicate in the appropriate box the number by category and list the details in the box)

a) Articles published in peer-reviewed journals:

1

b) International conferences:

1
FEEVA, Prague, Czech Republic - Disease Surveillance Working Group; VII Summit 26th-27th September “Lessons learnt from the Italian experience on the control of Equine Infectious Anaemia”

c) National conferences:

2
By Webinar, “Centro di Referenza per le l’Anemia Infettiva Equina e Centro di Referenza per le Malattie degli Equini: attività e prospettive future” 14/12/2023, organized by WOAH Reference Laboratory and National Reference Centre for Equine Infectious Anemia, Istituto Zooprofittico Sperimentale del Lazio and della Toscana M. Aleandri.
In presence “Salute e benessere del cavallo non DPA in Italia: un contributo concreto dei progetti di ricerca” 26/06/2023 organized by Ministry of Health, Italy.

d) Other (Provide website address or link to appropriate information):

2
https://craie.izslt.it/craie/
https://www.izs.it/equinotio/index.html

**TOR7: SCIENTIFIC AND TECHNICAL TRAINING**

17. Did your laboratory provide scientific and technical training to laboratory personnel from other WOAH Members?
Yes

<table>
<thead>
<tr>
<th>Type of technical training provided (a, b, c or d)</th>
<th>Country of origin of the expert(s) provided with training</th>
<th>No. participants from the corresponding country</th>

WOAH Reference Laboratory Reports Activities 2023
**TOR8: QUALITY ASSURANCE**

18. Does your laboratory have a Quality Management System?  
   Yes  
   Quality management system adopted: ISO/IEC 17025/2018  

19. Is your quality management system accredited?  
   Yes  
<table>
<thead>
<tr>
<th>Test for which your laboratory is accredited</th>

<td>ACCREDIA</td>
</tr>
</tbody>
</table>

20. Does your laboratory maintain a “biorisk management system” for the pathogen and the disease concerned?  
   Yes  
   Biosecurity Manager and a Biosecurity Manual revision 11, current version emitted on June 5th 2024

**TOR9: SCIENTIFIC MEETINGS**

21. Did your laboratory organise scientific meetings related to the pathogen in question on behalf of WOAH?  
   No

22. Did your laboratory participate in scientific meetings related to the pathogen in question on behalf of WOAH?  
   Yes  
<table>
<thead>
<tr>
<th>Title of event</th>
<th>Date (mm/yy)</th>
<th>Location</th>
<th>Role (speaker, presenting poster, short communications)</th>
<th>Title of the work presented</th>

</tr>
</tbody>
</table>

**TOR10: NETWORK WITH WOAH REFERENCE LABORATORIES**

23. Did your laboratory exchange information with other WOAH Reference Laboratories designated for the same pathogen or disease?  
   Yes

24. Do you network (collaborate or share information) with other WOAH Reference Laboratories designated for the same pathogen?  
   No

25. Did you organise or participate in inter-laboratory proficiency tests with WOAH Reference Laboratories designated for the same pathogen?  
   No

26. Did your laboratory collaborate with other WOAH Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?  
   No

**TOR11: OTHER INTERLABORATORY PROFICIENCY TESTING**

27. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than WOAH Reference Laboratories for the same pathogen?  
   Yes  
<table>
<thead>
<tr>
<th>Purpose for inter-laboratory test comparisons</th>
<th>Role of your reference laboratory (organizer/participant)</th>
<th>No. participating laboratories</th>
<th>Name of the Test</th>
<th>WOAH Member Countries</th>

<th>Location</th>
<th>SUBJECT (FACULTATIVE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Review of EIA Manual of Diagnostic Tests and Vaccines for Terrestrial Animals together with other WOAH RL</td>
<td>By email</td>
<td>Review terminated and consigned</td>
</tr>
</tbody>
</table>

29. Additional comments regarding your report:
Yes

In relation to the activities of this Reference Laboratory, considering that Equine Infectious Anaemia (EIA) is not a transboundary and zoonotic disease and affects only equids, the attention dedicated by each country is especially related to diagnostic activities linked with the international movement of horses. Furthermore, even if EIA prevalence is in general very low, however it could cause major economic impact in case of outbreaks in economically valuable horses. In fact, in the past EIA was not included in the ex OIE list A of diseases, and at present, according to the Animal Health Law (Reg 2016/429) for the European Union, EIA is listed in the D and E categories, meaning that measures are needed to prevent it from spreading both within and into the Member States and that there is a need for its surveillance within the European Union. Both in the European Union and in the other Regional Countries, surveillances activities for this disease are limited or non-existing, as priority is given to other diseases of other species accordingly with the animal production economics of the single countries.

During 2023/2024, following the request by WOAH, the Italian and Chinese RLs for EIAV jointly revised the EIA Chapter of the WOAH Terrestrial Manual. In addition, Dr. Munstermann for WOAH organised a Webinar on Equine Infectious Anaemia, on the 5th June 2024, in which the European Union Reference Laboratory was also included, together with the WOAH RLs as speakers the WOAH for an audience principally working in Asia. Such events aid to give visibility to the activities which WOAH RL carry out, and the support that they can provide on request. Similar events for other Regions would be helpful in giving a greater visibility to the WOAH RL.

Moreover the network is at present working on the organization of a Interlaboratory trial (IT) on EIAV to which all the WOAH members could participate.

Stating all the information provided above, we would like to make proposals, confirming those of the previous report, as the visibility of the RL, in fact, is the major key for the expansion of RL activities:

- The WOAH RLs, with the support of WOAH, could implement collaboration with the local laboratories of the Regional Countries, to collect biological samples from positive subjects, in target organs and EDTA blood samples, to perform genome sequencing for the study of the virus and to evaluate the sensitivity and the sensibility of the molecular methods that are in development for the detection of circulating EIAVs.
- Furthermore, means to increase awareness among member states could be improved on WOAH website informing them on the availability by the WOAH RLs to provide training, participate to research projects, validation and comparison of methods, supply reagents and ITs.
