

WOAH Reference Laboratory Reports Activities 2024

This report has been submitted: 28 janvier 2025 06:21

LABORATORY INFORMATION

*Name of disease (or topic) for which you are a designated WOA Reference Laboratory:	Viral haemorrhagic septicaemia
*Address of laboratory:	Pathology research division in aquaculture research department, National Institute of Fisheries Science (NIFS), Ministry of Oceans and Fisheries 216 Gijanghaean-ro, Gijang-eup, Busan 46082 Korea
*Tel:	+82-51 720.2114
*E-mail address:	hjkim1882@korea.kr
Website:	https://www.nifs.go.kr/fishguard/woah02
*Name (including Title) of Head of Laboratory (Responsible Official):	Yongseok Choi
*Name (including Title and Position) of WOA Reference Expert:	Hyoung Jun Kim
*Which of the following defines your laboratory? Check all that apply:	Governmental Research agency

TOR1: DIAGNOSTIC METHODS

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

Diagnostic Test	Indicated in WOA Manual (Yes/No)	Total number of test performed last year	
Indirect diagnostic tests		Nationally	Internationally
Direct diagnostic tests		Nationally	Internationally

Hyoung Jun Kim - - KOREA_(REP_OF)

Virus inoculation method		20	0
Conventional RT-PCR method		20	0
Real-time RT-PCR method		20	0

TOR2: REFERENCE MATERIAL

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by WOA?

No

3. Did your laboratory supply standard reference reagents (nonWOAH-approved) and/or other diagnostic reagents to WOA Members?

Yes

Type of reagent available	Related diagnostic test	Produced/ provide	Amount supplied nationally (ml, mg)	Amount supplied internationally (ml, mg)	No. of recipient WOA Member Countries	Country of recipients
Multiple positive control DNA for fish diseases	Pathogen gene detection of WOA liated disease for fish diseases	Yes	1mL	1mL	1	DENMARK,

4. Did your laboratory produce vaccines?

No

5. Did your laboratory supply vaccines to WOA Members?

No

TOR3: NEW PROCEDURES

6. Did your laboratory develop new diagnostic methods for the designated pathogen or disease?

Yes

7. Did your laboratory validate diagnostic methods according to WOA Standards for the designated pathogen or disease?

Yes

Name of the new test or diagnostic method developed	Description and References (Publication, website, etc.)
Conventional RT-PCR method for VHSV gene detection using novel 3F2R primer set (updated on WOA diagnostic manual for VHS)	1. 4.4.2. Conventional RT-PCR & 4.5. Amplicon sequencing; https://www.woah.org/fileadmin/Home/eng/Health_standards/aahm/current/2.3.10_VHS.pdf 2. Validation of a novel one-step reverse transcription PCR method for detecting viral haemorrhagic septicaemia virus. Aquaculture 492, 170-183 3. Importance of the 3'-terminal nucleotide of the forward primer for nucleoprotein gene detection of viral hemorrhagic septicemia virus by conventional reversetranscription PCR. Indian Journal of Microbiology 59(2): 234-236
Development of a novel strategy to reduce diagnostic errors in real-time polymerase chain	Kim, H.J., Schiøtt, M., Olesen, N.J., Choi, E., Ku, B.K., Lee, K.K., Jeong, H.Y., Lee, I., Kim, S.M., Cho, M., Kim, Y.C. 2024 Development of a novel strategy to reduce diagnostic errors in real-time polymerase chain reaction using

Hyoung Jun Kim - - KOREA_(REP_OF)

reaction using probe-based techniques

probe-based techniques. Scientific Reports, Published.

8. Did your laboratory develop new vaccines for the designated pathogen or disease?

No

9. Did your laboratory validate vaccines according to WOAHP Standards for the designated pathogen or disease?

No

TOR4: DIAGNOSTIC TESTING FACILITIES

10. Did your laboratory carry out diagnostic testing for other WOAHP Members?

No

11. Did your laboratory provide expert advice in technical consultancies on the request of an WOAHP Member?

Yes

Name of the WOAHP Member Country receiving a technical consultancy	Purpose	How the advice was provided
FIJI	enhance the diagnostic capacity against animal diseases	Discussed the KOICA program between Korea and Fiji

TOR5: COLLABORATIVE SCIENTIFIC AND TECHNICAL STUDIES

12. Did your laboratory participate in international scientific studies in collaboration with WOAHP Members other than the own?

Yes

Title of the study	Duration	Purpose of the study	Partners (Institutions)	WOAHP Member Countries involved other than your country
International Workshop for new WOAHP collaborating centre in Korea	3 days	Scientific meeting and cooperation research with WOAHP	WOAHP headquarters, WOAHP Asia & Pacific office, WOAHP AAHSC, Animal and Plant Quarantine Agency (APQA), National Institute of Fisheries Science (NIFS)	KOREA (REP. OF)
Validation of PCR positive material for molluscs diseases	1 week	Experiment and validation of multifunctional PCR positive material for molluscs diseases	European Union reference laboratory for molluscs diseases	DENMARK

13. In exercising your activities, have you identified any regulatory research needs* relevant for WOAHP?

No

TOR6: EPIZOOLOGICAL DATA

Hyoung Jun Kim - - KOREA_(REP_OF)

14. Did your Laboratory collect epidemiological data relevant to international disease control?

Yes

If the answer is yes, please provide details of the data collected:

Our laboratory got 2 VHSV isolates from NFQS (Quarantine group and diseases control group for domestic) in 2024. We will check the gene analysis using WOAHP diagnostic manual.

15. Did your laboratory disseminate epidemiological data that had been processed and analysed?

No

16. What method of dissemination of information is most often used by your laboratory? (Indicate in the appropriate box the number by category and list the details in the box)

a) Articles published in peer-reviewed journals:

3

1. Development of a novel strategy to reduce diagnostic errors in real-time polymerase chain reaction using probe-based techniques

2. First Report of Bacterial Kidney Disease (BKD) Caused by *Renibacterium salmoninarum* in Chum Salmon (*Oncorhynchus keta*) Farmed in South Korea

3. Improving diagnostic procedures for mass mortality events on aquaculture farms during high temperature periods

b) International conferences:

2

In the WOAHP general assembly,

New WOAHP Collaborating Centre for Reference Materials of Molecular Diagnostic Techniques in Aquatic and Terrestrial Animal diseases

In the International Workshop for new WOAHP CC in Korea,

New WOAHP Collaborating Centre for Reference Materials of Molecular Diagnostic Techniques in Aquatic and Terrestrial Animal diseases

c) National conferences:

d) Other (Provide website address or link to appropriate information):

TOR7: SCIENTIFIC AND TECHNICAL TRAINING

17. Did your laboratory provide scientific and technical training to laboratory personnel from other WOA Members?

Yes

a) Technical visit : 15

b) Seminars : 15

c) Hands-on training courses: 15

d) Internships (>1 month) 0

Type of technical training provided (a, b, c or d)	Country of origin of the expert(s) provided with training	No. participants from the corresponding country
A	BANGLADESH	1
A	MALAWI	2
A	TANZANIA	2
A	FIJI	2
A	UGANDA	1
A	NIGERIA	1
A	INDONESIA	2
A	GHANA	1
A	PHILIPPINES	1
A	KENYA	2

TOR8: QUALITY ASSURANCE

18. Does your laboratory have a Quality Management System?

Yes

Quality management system adopted	Certificate scan (PDF, JPG, PNG format)	
ISO/IEC 17025:2017	PDF	20240523_KT664_National_Istitute_of_Fisheries_Science_PM_Eng.pdf

19. Is your quality management system accredited?

Yes

Test for which your laboratory is accredited	Accreditation body
Molecular techniques for Viral haemorrhagic septicaemia	KOLAS (Korea Laboratory Accreditation Scheme)
Molecular techniques for Koi herpesvirus disease	KOLAS (Korea Laboratory Accreditation Scheme)
Molecular techniques for Spring Viraemia of carp	KOLAS (Korea Laboratory Accreditation Scheme)
Fish cell culture method	KOLAS (Korea Laboratory Accreditation Scheme)

20. Does your laboratory maintain a "biorisk management system" for the pathogen and the disease concerned?

No

TOR9: SCIENTIFIC MEETINGS

21. Did your laboratory organise scientific meetings related to the pathogen in question on behalf of WOA?

Yes

National/ International	Title of event	Co-organiser	Date	location	No. Participants
International	International Workshop in Korea for Designation of WOA Collaborating Centre distributing Diagnostic Reference Materials	WOAH	2024-07-03	Sejong-si	50

22. Did your laboratory participate in scientific meetings related to the pathogen in question on behalf of WOA?

Yes

Title of event	Date	location	Role (speaker, presenting poster, short communications)	Title of the work presented
WOAH General Assembly	2024-05-24	Paris	Delegate	Expert of WOA reference laboratory for VHS

TOR10: NETWORK WITH WOA REFERENCE LABORATORIES

23. Did your laboratory exchange information with other WOA Reference Laboratories designated for the same pathogen or disease?

Yes

24. Do you network (collaborate or share information) with other WOA Reference Laboratories designated for the same pathogen?

Yes

NETWORK/DISEASE	ROLE OF YOUR LABORATORY (PARTICIPANT, ORGANISER, ETC)	NO. PARTICIPANTS	PARTICIPATING WOA REF. LABS
Inter-laboratory proficiency test 2022 for identification and titration of VHSV, IHN, EHN, SVCV, IPNV (PT1) and identification of CyHV-3(KHV), SAV and ISAV (PT2)	Participant	45	WOAH reference laboratory for VHS in Korea / WOA reference laboratory for VHS in Denmark

25. Did you organise or participate in inter-laboratory proficiency tests with WOA Reference Laboratories designated for the same pathogen during the past 2 years?

Yes

Purpose of the proficiency test:	Role of your Reference Laboratory (organiser/participant)	No. participating Laboratories	Participating WOA Ref. Labs/organising WOA Ref Lab
----------------------------------	---	--------------------------------	--

Hyoung Jun Kim - - KOREA_(REP_OF)

Inter-laboratory proficiency test 2021 for identification and titration of VHSV, IHNV, EHN, SVCV, IPNV (PT1) and identification of CyHV-3(KHV), SAV and ISAV (PT2)	Participant	45	WOAH reference laboratory for VHS in Korea / WOAH reference laboratory for VHS in Denmark
--	-------------	----	---

26. Did your laboratory collaborate with other WOAH Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

Yes

Title of the project or contract	Scope	Name(s) of relevant WOAH Reference Laboratories
Memorandum of agreement (MOA) between the national institute of aquatic resources (WOAH reference laboratory for VHS in Denmark) and National Institute of Fisheries Science (NIFS, WOAH reference laboratory for VHS in Korea) on cooperative research project for fish disease control	Enhance and strengthen the bilateral relationship through cooperative research and meetings of the Sides for the development and standardization of diagnostic tools; methods to prevent the spread of infectious agents; disease prevention systems etc., in accordance with basic regulations of the WOAH aquatic animal health code	WOAH reference laboratory for VHS in Korea(NIFS) and WOAH reference laboratory for VHS in Denmark (DTU, National Institute of Aquatic Resources)

TOR11: OTHER INTERLABORATORY PROFICIENCY TESTING

27. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than WOAH Reference Laboratories for the same pathogen during the past 2 years?

Yes

Purpose for inter-laboratory test comparisons ¹	Role of your reference laboratory (organizer/participant)	No. participating laboratories	Name of the test	WOAH Member Countries
To primarily assess the identification of the fish viruses: VHSV, IHNV, EHN, SVCV, IPNV, Ranavirus by cell culture	Participant	45	EURL for fish diseases ILPT 2023	KOREA (REP. OF),
Assessing the ability of participating laboratories to identify the fish pathogens: ISAV, SAV and CyHV-identify the fish pathogens: ISAV, SAV and CyHV-3(KHV) by biomolecular methods (PCR, sequencing and genotyping	Participant	45	EURL for fish diseases ILPT 2023	KOREA (REP. OF),

TOR12: EXPERT CONSULTANTS

28. Did your laboratory place expert consultants at the disposal of WOA?

Yes

Kind of consultancy	Location	Subject (facultative)
Review of WOA Standards	National Institute of Fisheries Science (Busan)	Review for Chapter 1.1.2. – Validation of diagnostic assays for infectious diseases of aquatic animals

29. Additional comments regarding your report:

No
